

### 3 Reasons why CTE is the Pathway to a Great Future

In a world where “college for all” is considered the gold standard in education, why should a young person choose a career and technical education (CTE) pathway in high school? What value does CTE actually impart? After all, if they’re headed to college, why do they need to learn a technical skill? Many reasons leap to mind. Here are three of the most vital arguments for CTE as a pathway to a great future.

- 1 CTE is a Collegebound Track
- 2 CTE Improves Academic Performance
- 3 CTE Creates More Choices
