

## EdisonLearning Offerings for Synchronous Learning

EdisonLearning understands the importance of both synchronous and asynchronous offerings for students on a digital learning platform. We operate from a student-centered approach and therefore provide multiple avenues for all learners. The majority of our students prefer an asynchronous experience though there are students who require and look for additional synchronous offerings.

The EdisonLearning Instructional Support Services team offers a range of synchronous sessions including scheduled options and drop-in hours. All of the sessions are outlined in eSchoolware and the teacher’s materials.

<p><b>Office Hours</b></p>	<p>Office hours are held at the same time each week. Students can join the scheduled Zoom call with a certified subject area teacher for questions about their coursework, assignments and feedback or review specific course concepts.</p> <p>Office hours are posted weekly in the announcements and can be found on the student portal homepage.</p>
<p><b>Personalized Live Instruction</b></p>	<p>Personalized Live Instruction is available to students during the school day at the request of the student. A student may schedule time with the teacher to have specific instruction geared to their needs. Directions to submit a request for a Personalized Live Instruction session are found in the teacher's classroom materials. Teachers may also suggest a particular student attend Personalized Live Instruction to assist with mastery of concepts and/or needed acceleration.</p>
<p><b>Skills-Based Synchronous Sessions</b></p>	<p>Teachers offer specific skills-based synchronous sessions to groups of students on an as-needed basis for those students who need support with specific concepts. These sessions vary on the time and date as they are guided by the needs of the student groups.</p>

**In the 2024–2024 school year, approximately 11% of total CAOLA enrollments utilized at least one of the three synchronous learning opportunities.**

### eCourse Content

All eCourses offered by EdisonLearning are available online and asynchronously. Courses range from grades 6–12. Core and elective eCourses from EdisonLearning align with the Pennsylvania Department of Education mandates and guidelines and are taught by a Pennsylvania-certified instructor.
